Profile

Front-end Developer specializing in React with experience in commercial projects. Proficient in the MERN stack, REST API integration, and AI integration. Currently expanding skills in TypeScript.

Projects

Clean-Read – MERN application for distraction-free reading that automatically fetches and creates articles.

- *React, Context + Reducer, JWT, REST API, AI integration, login/registration, contact form.*

[Live version](#)

[Repository link](#)

Tiste – project for estimating fishing success rates, custom-designed algorithm for calculating catch probability

- *React, TypeScript, Leaflet, Recharts, OpenWeather, localStorage*

[Live version](#)

[Repository link](#)

Miropak – fully functional online store with multiple integrations.

- *wordpress, woocommerce, apilo*

[Live version](#)

Skills

Frontend – React, JavaScript, TypeScript, HTML, CSS, Tailwind, Styled Components, SASS, BEM

Backend – Node.js, Express, MongoDB, Mongoose

CMS / E-commerce – WordPress, WooCommerce, PrestaShop, Joomla

Others – REST API, Git, RWD, AI integrations, VPS server – configuration, hosting and domain management

Education

Language Profile: English, German – Jan III Sobieski High School in Wejherowo

2009 – 2012

Experience

ECOTERM – Customer Support Specialist

2015 – 2018

Provided multilingual (English/German) customer service for international clients. Effectively handled complaints, disputes, and order issues with a focus on customer satisfaction.

ECOTERM - Sales Manager

2019 – present

Manage B2B partnerships and coordinate orders while administering online stores based on PrestaShop and WooCommerce. Handle system integrations, implement e-commerce improvements and maintain communication with key business partners.
